Professional Summary

Computer Science undergraduate (Honors in Cybersecurity) with hands-on experience in Full-Stack Software Development using MERN Stack, Next.js, and TypeScript. Proven ability to design and ship scalable web applications, RESTful APIs, and real-time systems with 500+ LeetCode problems solved and strong foundations in DSA, system design, and secure software development.

Technical Skills

Languages: Java, C++, Python, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Redis, Microservices

Databases & DevOps: MongoDB, MySQL, Docker, GitHub Actions (CI/CD), Vercel

Tools & Testing: Git, GitHub, Jest, Postman, VS Code, Agile/Scrum

Concepts: DSA, OOP, DBMS, System Design, OS, Computer Networks, Cybersecurity

Experience

Full Stack Developer Intern

May 2025 – Oct 2025

Unifinder – Study Abroad Platform (Remote)

- Built and maintained full-stack features for a study abroad platform using React.js, Node.js, and MongoDB, delivering responsive UI and efficient backend services
- Designed and integrated RESTful APIs to dynamically fetch and render university listings, reducing manual content updates and improving data accuracy
- Developed reusable UI components with Tailwind CSS and collaborated with the team via Git/GitHub workflows in an agile sprint-based environment

Projects

IntervixAI – Real-Time AI Voice Interview Platform

Next.js, TypeScript, Vapi AI, Gemini AI

- Built a real-time AI voice interview platform enabling interactive mock interviews with AI-powered voice agents.
- Integrated Vapi AI and Gemini AI to generate interview questions, conduct voice conversations, and provide instant AI-driven feedback.

MeetFlow – Video Conferencing Platform

Next.js, TypeScript, Stream Video SDK, Clerk

- Built a real-time video conferencing platform with secure authentication, HD video meetings, and responsive UI.
- Implemented instant and scheduled meetings, personal meeting rooms, recordings, and shareable meeting links.

Real-Time Chat Application

MERN Stack, Socket.io, JWT

- Built a full-stack chat app with Socket.io supporting 100+ concurrent WebSocket connections with under 100ms message latency
- Designed RESTful APIs with JWT authentication and bcrypt password hashing securing 200+ user accounts

Coding Profiles & Achievements

- Solved 500+ DSA problems on LeetCode covering arrays, trees, graphs, and dynamic programming.
- Earned 5-star badges in C++, Java, C, Python, and SQL on HackerRank.
- Secured 1st place in a coding competition among 100+ participants organized by the College Technical Society.
- Contributed to open-source projects with 5+ merged PRs including feature development, bug fixes, and documentation.

Education

Kanpur Institute of Technology, Kanpur

2023 – Present

Bachelor of Technology in Computer Science Engineering(Honors in Cybersecurity)

CGPA: 8.8/10

S.J. Education Centre, Kanpur

2022 – 2023

ISC Class XII

Percentage: 91.25%

S.J. Education Centre, Kanpur

2020 – 2021

ICSE Class X

Percentage: 94.4%
